BUILD PLATE REFURBISHMENT

- Closed-loop refurbishment program
- Contractual / fixed pricing
- Kanban inventory programs
- Custom recycling packaging
- Customer-billing programs

WIRE EDM BUILD PART REMOVAL

- Designed for any powder bed fusion parts
- Reduces your total build time
- Customized collection baskets
- Separated parts from large build plates

ADDITIVE SOLUTIONS

A complete closed-loop solutions program designed to shift your time completely away from non-value-added processing and allow you to focus exclusively on what makes money for your business; making additive parts. Gone is the need to manage multiple vendors, spend time and money procuring raw materials, deal with long supply chain lead times, machining and resurfacing, part removal, and storing and scrapping used additive base plates. We have a proven solution made for you, UPM Additive!
