City : Hamilton
State/Country: OH / USA
Zip Code: 45015

Attention: Mr. Josh Fields – Quality Regulatory & Compliance Manager

Dear Mr. Fields,

Pratt & Whitney (P&W) is pleased to inform you that your company is now identified as a qualified source authorized to perform work on P&W parts and programs in accordance with the following specification(s):

- **PWA 119, "Hole Drilling or Cutting by Electron Beam or Laser Beam Metal Removal"**
 - **Nickel Alloys**

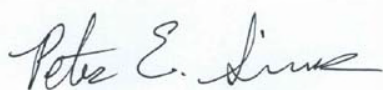

This authorization now forms a part of our Source Qualification List (SQL) of approved suppliers.

P&W establishes controls for chemical and metallurgical processing performed by P&W qualified sources. Compliance with these controls and with applicable specifications is necessary for continued qualification. Continuance of the qualification also depends on maintaining facilities, procedures, equipment and controls to P&W standards, as determined by our periodic surveys, and on our routine testing of our product. Qualifications for materials and procedures not used on P&W parts for one year may be discontinued at discretion of P&W.

We have reviewed your written processing procedures and find them to be satisfactory. Processing shall be in accordance with these approved procedures, and no change shall be made without prior written approval of P&W Materials Control Laboratory.

Process approval does not relieve qualified source of responsibility for conformance to all applicable drawing and purchase order requirements.

Sincerely,

Quality & Process Engineering (Q&PE)
Pratt & Whitney
